Business Process Analysis and Modelling

REF: M113 DATE: 18 - 22 August 2024 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel, Resort, Fee: 3520 Euro

Introduction:

This training program equips participants with the knowledge and skills to analyze and optimize business processes effectively. By mastering process modeling techniques and tools, participants are empowered to streamline operations, enhance productivity, and drive sustainable business growth.

Program Objectives:

At the end of this program, the participants will be able to:

- Analyze the process dimension of the business.
- Define the scope of a business process and develop an enterprise-level business process model.
- Capture and map the details of an existing business process using a model and build an integrated model of a defined business process showing its levels of detail.
- Obtain the information necessary to build a business process model and identify business process improvement opportunities using a model.
- Apply best-practice business process modeling techniques.
- Implement business process improvements to achieve breakthrough results.

Targeted Audience:

- Business Process Analysts, Engineers, Consultants, and Managers.
- Managers or Directors of Business Performance Improvement.
- Process Owners.
- Quality Assurance Analysts and Managers.
- Business Planners.

Program Outlines:

Unit 1:
