Fast Closing Monthly and Year-End Accounts

REF: F2217 DATE: 12 - 16 August 2024 Venue: London (UK) - Landmark Office Space Fee: 5300 Euro

Introduction:

This application gives a thorough explanation of the "Fast Close" procedure, which enables a contemporary, international company to quickly shut the books on its accounting, gather, consolidate, and publish its financial statements. This procedure is frequently seen as a stand-in for sound, effectively implemented corporate governance as well as an indicator of management's capacity to carry out its strategic plan in light of the accessibility of quick, accurate financial information. The "Fast Close" process, after a long period of sustained improvement, is now in a period of decline, which is largely due to the impact of compliance, new accounting and reporting standards, and the sheer increase in the volume and complexity of financial data, which will also be covered in this program.

Course Objectives:

By the end of this course, participants will be able to:

- Understand the importance of the fast close process on financial and operational decision-making within an organization
- Examine fast close processes, strategies and best practices as well as consideration of organizational documentation policies and procedures
- Understand the importance of departmental requirements for financial reporting as well as the need for on-going improvements to the closing process
- Provide faster and more accurate data for monthly and year-end account closings with the goal of enhancing communication with internal and external financial statement users
