Aligning with the Ecosystem and Learning Advanced Skills in Policy Making

REF: Z2532 DATE: 17 - 21 November 2024 Venue: Dubai (UAE) - Fee: 4400 Euro

Introduction:

In today's rapidly changing world, effective policy-making requires not only a deep understanding of governmental processes but also a keen awareness of the broader ecosystem within which policies operate. The "Aligning with the Ecosystem and Learning Advanced Skills in Policy Making" training program offers participants an immersive experience aimed at enhancing their policy-making skills while emphasizing the interconnectedness between policy decisions and their impact on various stakeholders and environments. Through a combination of theoretical frameworks, case studies, and practical exercises, participants will gain the tools and insights necessary to navigate complex policy landscapes and drive meaningful change.

Program Objectives:

- Equip participants with advanced skills in policy analysis, formulation, and implementation.
- Foster an understanding of the interplay between policies, stakeholders, and the broader ecosystem.
- Provide practical tools for effective stakeholder engagement and collaboration in policy development processes.
- Enhance participants' ability to anticipate and respond to emerging challenges and opportunities within their respective policy domains.
- Empower participants to lead innovative and sustainable policy initiatives that address complex societal issues.

Targeted Audience:

At the end of this course the participants will be able to:

- Mid- to senior-level policymakers
- Government officials
- NGO leaders
- Professionals working in fields related to public policy
- Professionals working in governance
- Professionals working in advocacy
- Individuals seeking to transition into policy roles
- Individuals looking to enhance existing policy-making skills
