Effective Budgeting & Operational Cost Control

REF: F67 DATE: 5 - 9 August 2024 Venue: Dusseldorf (Germany) - Fee: 5940 Euro

Introduction:

The effective management of budgeting and cost control is crucial for project/process-based organizations. Nowadays, if contemporary organizations want to stay competitive, they are urged to think in terms of process-value added to customers/shareholders. Along this line, budgeting, as well as tracking, controlling & reducing cost represent essential activities to be performed and monitored by organizations as they implement their key processes, activities, and operations. In addressing these issues, this course is relevant for those professionals & analysts facing the difficult challenge of improving performance while reducing the costs of those processes for which there are accountable. By combining techniques analysis, problems and examples with real case studies the course provides delegates with key cost awareness and budgetary skills, which is essential to managing and controlling processes/projects in times of increasing global competition where the budgets are inextricably linked with both strategy formulation and cost analysis.
