Supply Chain Management - Level 1

REF: L1380 DATE: 17 - 21 June 2024 Venue: London (UK) - Landmark Office Space Fee: 5850 Euro

Introduction:

This training course in Supply Chain Management has been designed to cover the essential aspects of Procurement operations management and Supply Chain supervision. The training enables delegates to appreciate the key features, both operational and financial of effective supply chains and apply global best practice strategies within their own environment.

Course Objectives:

At the end of this course the participants will be able to:

- Develop cost and operational efficiency initiatives for each component of the supply chain, whilst effectively managing inventory and warehouse efficiency strategies. In addition, the training covers quality, environmental, and safety standards implementation tactics, which will enable participants to make informed financial and operational decisions regarding supply chain operations. At the end of the course, delegates will have the premises to equip their organizations with global best practice strategies in supply chain management and effectively contribute to the profitability of their organizations.

Targeted Audience:
