16 - 20 Decemder 2024
Paris (France)

Conference: ISO Business Continuity Management System 22301 Lead Auditor

REF: C2145 DATE: 16 - 20 December 2024 Venue: Paris (France) - Fee: 6555 Euro

Introduction

Organizations today aim to become certified against ISO 22301 to demonstrate commitment to business continuity and ensure that disruptive incidents are identified and appropriately addressed, ensuring that the management system is continuously improved. This is due to the rising number of disruptions and the unpredictable nature of disasters of any kind natural, occupational, information security, as well as their increasing frequency and frequency. You will receive formal and independent validation of your personal skills by earning certification as an auditor, which entitles you to perform BCMS audits for a certifying authority.

The ISO 22301 Lead Auditor conference in recognition of the value of an efficient audit and the strategies employed to perform one successfully. You can learn the information and abilities necessary to organize and conduct out audits in accordance with ISO 19011 and the certification procedure in accordance with ISO/IEC 17021-1 by enrolling in this conference.

You will be able to learn about the business continuity management system and audit techniques through interactive sessions, explanatory information, exercises, and discussion questions. You will also be competent to perform a BCMS audit by using widely accepted audit principles, procedures, and techniques, as well as to manage an audit program and an audit team.

You can take the exam after taking the conference, and if you pass, you can apply for the Certified ISO 22301 Lead Auditor" credential. Your ability to audit organizations in accordance with ISO 22301 regulations and auditing best practices will be demonstrated by the internationally recognized Certified ISO 22301 Lead Auditor" certificate.

Conference Objectives:
