HR Metrics and Analytics

REF: C582 DATE: 19 - 23 May 2024 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel, Resort, Fee: 4095 Euro

Introduction:

The HR function is a high-value-added part of the organization and plays a key role in developing and implementing corporate strategy. This is because of the growing importance of human capital in organizational success.

The HR function needs to be more effective as a strategic partner in the organization rather than a purely administrative function. Such an HR function will drive and deliver change rather than just react to it.

To achieve this highly desired prize, the HR function must develop its ability to measure how HR decisions affect the organization and how the decisions taken by the organization affect human capital. In short, the HR function needs to develop better metrics and analytics if it is to become a true strategic partner.

Once the metrics are established, the organization will need to develop HR policies that react to the messages. The conference will also consider the type of HR policies that are being developed in response to the usual range of messages from the metrics and analytics.

Conference Objectives:

At the end of this conference the participants will be able to:

- Examine the use of internal and external measurement frameworks which establish the contribution of the HR function
- Conduct detailed Problem analysis assessments
- Identify appropriate Decision-Making options
- Make decisions based on evidence rather than opinion
- Understand the principles of Organisation change
- Understand the theory around organization change
- Drive strategic change rather than react to it

Targeted Audience:

- HR Professionals in organizations who would like to develop the role of HR within the organization
- HR Professionals tasked with providing HR data to support strategy development and delivery
