Strategy, Leadership & Innovation: Achieving Strategy Through Leadership

REF: ST752 DATE: 12 - 16 August 2024 Venue: London (UK) - Landmark Office Space Fee: 5300 Euro

Introduction:

Innovation is the key strategy of many organizations in the global competitive industries of the new century. New ideas can lead to programs, products and services which can provide a distinct competitive advantage over competitors. With routine tasks becoming more automated and the competitive environment becomes more dynamic, creative problem solving and innovation will play an increasingly important role in determining the success of business leaders. Creativity is the process of generating new and useful ideas. Innovation is taking a new idea and putting it to use. The critical role of the leader is to create an environment where creativity and innovation flourish, and where people's innate resistance to the changes that require is successfully overcome.

Course Objectives:

At the end of this course the participants will be able to:

- Set creativity and innovation in a strategic context
- Understand the drivers for a greater emphasis in business on creativity and innovation
- Identify the processes and activities which support creativity and innovation in organizations
- Identify the strategies, tools, and techniques to improve levels of creativity and innovation
- Understand how the process of change can block or enable employees at all levels to resist or embrace a greater emphasis on creativity and innovation
- Understand the crucial role and skills of the leader in creating an environment where creativity and innovation thrive
- Develop skills for strategic leaders to lead the process of building the right culture for fostering innovation
- Improve preparedness to deal with strategic improvements
- Establish organizational, team and personal innovative capabilities
- Improve performance by executive innovative processes and functions
- Improve motivation and gain the participation of the full workforce
