Sustainable Finance

REF: F1690 DATE: 23 - 27 December 2024 Venue: Kuala Lumpur (Malaysia) - Fee: 5300 Euro

Introduction

In the corporate world of the twenty-first century, ethical firms must actively manage their influence on important global sustainability issues like climate change, resource depletion, and inequality. Investors and other key stakeholders expect this of them. This cutting-edge training program in sustainable finance will give you the fundamental concepts, useful tools, and insider knowledge you need to assist your organization in creating a sustainable approach to finance that will address these issues and benefit the organization, its stakeholders, and larger society.

The Sustainable Finance training course will study the present financial systems' practices, trends, and opportunities as well as the effects of these issues on business strategy for firms of all sizes. Delegates will be given the tools they need to discover and use a novel new strategy for creating more sustainable business models for their organizations.

Course Objectives

At the end of this course the participants will be able to:

- Learn the goals and tenets of sustainable finance.
- Recognize the most important environmental, social, and governance ESG challenges.
- Impact on business and financial strategy to be identified
- Create useful tools for reporting on sustainable financing
- Create financial models to evaluate other risks and sustainable funding

Targeted Audience
